

## **WORLDWIDE EVENTS**

Nirvana has over 20 years' experience of delivering tailor-made travel, accommodation, and logistics services to support sporting people on their journey to participate.

Over the years our specialist team has worked with the world's greatest athletes, major global events and of course the business of sport as it meets and competes.

During this time, we have realised there is much more to an event than just getting there, it is about providing the right services at the right time and place that really makes the difference. That is why we provide a range of personalisable services designed to support our customer before, during and after the event, whatever their sporting endeavour.
